

GLADSTONE SDA ENERGY HUB

Have your say on our
**Community Partnership
Program**

We are developing a Community Partnership Program to share the benefits of our Gladstone SDA Energy Hub project with the Gladstone region, including Mount Larcom and Yarwun.

Locals know their community better than anyone, so we are seeking your ideas and feedback. Help us create a program with long-lasting benefits to meet the needs of your community – today and into the future.

Investing in the community

If the Gladstone SDA Energy Hub proceeds, we propose to allocate up to \$300,000 per year* to the Community Partnership Program from the start of Stage One construction. We plan to expand the program and allocate additional funding for future stages of the Gladstone SDA Energy Hub to incorporate feedback from community members and the Gladstone Regional Council. For more information about the Gladstone SDA Energy Hub stages, visit Private-energypartnerscommunity.com.au.

*This figure was calculated using industry standards. They will be reviewed and amended according to the Consumer Price Index (CPI), any Queensland Government policy, or good practice directions.

Have your say on our Community Partnership Program

There is no single approach for delivering a Community Partnership Program and that is why we would like your input.

Our proposed Community Partnership Program

BENEFITS FOR THE COMMUNITY

We propose our community partnerships focus on delivering benefits in the following areas:

Community enhancement

To strengthen local economic opportunities and liveability for a broad cross section of the community.

Health and wellbeing

To contribute to a healthier, happier local community.

Environment

To help maintain and protect the natural environment.

Reconciliation

To develop initiatives in consultation with local Traditional Owners.

Education and skills

To increase the knowledge and skills of local people, encouraging them to participate in local industry.

ELIGIBILITY CRITERIA

We propose supporting events and initiatives that:

- have a **measurable positive impact** on the community or environment
- are **inclusive and accessible** and do not discriminate against or disadvantage anyone
- support a **demonstrated need** within the community
- are **sustainable** and provide ongoing benefits to the community
- are **delivered safely**.

PROGRAM STRUCTURE

We propose a flexible program with different types of community partnerships including:

- **one-off, long-lasting community investments** for infrastructure or initiatives such as upgrades to community-funded facilities or new community facilities
- **funding** for community events and initiatives such as the Mount Larcom Show, sporting programs, and activities that boost the visitor economy
- **training and development opportunities** to increase local skills through school-based and adult traineeships, scholarships and apprenticeships.

ASSESSING PARTNERSHIP ELIGIBILITY

We propose the community has a say in assessing partnership applications. One way of doing this is to form a **Community Reference Group (CRG)**, with representatives from a broad cross section of the community. The CRG might also provide feedback to us about our Gladstone SDA Energy Hub throughout construction, operation and decommissioning.

If the community supports this idea, we will call for expressions of interest for CRG membership and, once formed, the group will develop Terms of Reference to outline how the CRG will operate, including its purpose, membership duration and meeting frequency.

COMPLETE OUR SURVEY USING ONE OF THE FOLLOWING OPTIONS:

Online at Private-energypartnerscommunity.com.au or by scanning the QR code.

On a hard copy and return:

- by scanning and emailing community@private-energypartners.com
- by post to PO Box 842 GPO Brisbane QLD 4000

Call us on 1800 975 039 and we can take your feedback over the phone.

The survey will close on **Friday, 14 November 2025**.

Once we have collected your feedback, we will let the community know what we heard and develop a local Community Partnership Program based on local views. For more information on the Gladstone SDA Energy Hub, please visit Private-energypartnerscommunity.com.au or scan the QR code.
